

Dr. Diane Beneventi is an Associate Professor in the Department of Behavioral Science and the Clinical Director of the Tobacco Research and Treatment Program at MD Anderson. She has over 14 years of experience in tobacco treatment. She supervises all counselors and support personnel in the program and has supervised multiple pre-doctoral students. She has been a licensed clinical psychologist for over 30 years and is currently licensed in Texas and Louisiana. She is Certified as a Professional by the American Heart Association in Tobacco Treatment and helped create the Tobacco Treatment Training Program at MD Anderson. She also supports and participates in Project TEACH, a tele-mentoring program for cessation. Her research interests include expanding the delivery of evidence based tobacco treatment by enhancing and improving quitline service.
